

1ST IAA SYMPOSIUM ON MOON FARSIDE PROTECTION

MARCH 21-22, 2024
TURIN (TORINO), ITALY

PRESS RELEASE

1st International Symposium on Moon Farside Protection: A Revolutionary Event in the Space Sector

Turin (Italy), January 29, 2024 - The world is gearing up for an unprecedented event in space exploration: the **1st International Symposium on Moon Farside Protection**, scheduled for March 21-22, 2024, in Turin (Italy). Organized by the International Academy of Astronautics (IAA) and conceived by the renowned mathematician and space physicist, Prof. Claudio Maccone, the symposium provides a unique opportunity to discuss and delve into the challenges and opportunities associated with protecting the farside of the Moon.

A Global Symposium

The symposium brings together speakers, space agencies, organizations, and companies of international recognition, making it a global event. Experts from various fields will share their knowledge and discuss crucial topics related to planetary defense, cosmology, the search for life in space, and a scientifically sustainable approach to the new lunar race. The complete program is available on the official website www.moonfarsideprotection.org.

Moon Farside Protection: A Global Prospect

Prof. Maccone's pioneering initiative aims to explore the crucial theme of protecting the farside of the Moon, opening new prospects in our approach to lunar colonization and beyond. Through presentation sessions and roundtable discussions, the symposium will provide a comprehensive overview of the challenges and opportunities associated with this fascinating endeavor.

Prof. Claudio Maccone: A Visionary in Space Exploration

Prof. Claudio Maccone, a prominent figure in the space sector, conceived the idea for this symposium, marking a significant step toward understanding and protecting the Moon Farside. His vision and scientific leadership have contributed to making this event possible.

Major Endorsements

The symposium is proudly endorsed by prestigious entities, including the Italian Space Agency (ASI) and the International Telecommunication Union (ITU). This recognition attests to the importance and value of the event on the international stage.
